

SCIENCE

01. On a warm sunny day, you feel cooler on wearing light coloured clothes. The reason is these clothes
A. reflect more radiation. B. prevent sweating.
C. are not as heavy as dark clothes. D. let more air in.
02. A clinical thermometer is marked from
A. 0°C to 100°C B. 0°C to 35°C C. 35°C to 100°C D. 35°C to 42°C
03. Which is commonly used in a thermometer to read the temperature?
A. Mercury B. Helium C. Sodium D. Nitrogen
04. Now-a-days we are using CNG as a fuel. What is the full form of CNG?
A. Combined nitrogen gas B. Compressed natural gas
C. Controlled natural gas D. Compact natural gas.
05. Slate belongs to a category of rocks called
A. Igneous rock B. Metamorphic rock
C. Sedimentary rock D. Igneous metamorphic rock.
06. The blood vessels carrying oxygenated blood, having thick walls and deeply settled in the body are called
A. Glands B. Veins C. Capillaries D. Arteries.
07. The property of certain solids to be drawn into wires like silver, gold, copper and iron.
A. Ductile B. Soluble C. Malleable D. None of these.
08. When a metal rim is fitted on wood it is first
A. expanded then contracted B. contracted then expanded
C. melted then cooled. D. None of these.
09. The system of units now used is known as
A. Indian System of Units B. American System of Units
C. Russian System of Units D. International System of Units
10. Objects which emit light of their own are called
A. Non-luminous objects B. Opaque objects
C. Translucent objects D. Luminous objects
11. Travelling long distances to avoid hardships of winter by birds is called
A. Adaptation B. Hibernation C. Migration D. Aestivation

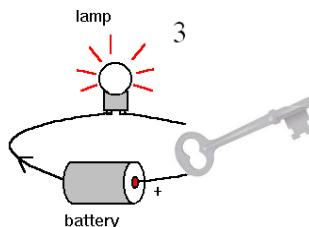

12. The following diagrams show a battery and a bulb connected by wires to various materials. Which will give you light?

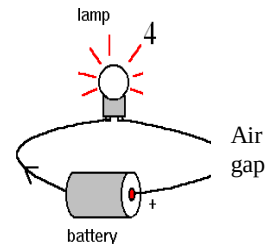

Aluminium foil

Plastic spoon

Brass key

Air

A. 1 only

B. 2 and 3 only

C. 1 and 3 only

D. 1, 3 and 4 only
