

SAMPLE QUESTION PAPER

**CLASS VIII
SCIENCE**

SECTION A

I. Write the correct answer (option a, b, c or d) in the boxes provided:

1. The device shown below is a periscope.

What type of mirror is used in a periscope?

- (a) Convex mirror (b) Plane mirror
(c) Plano concave mirror (d) Concave mirror

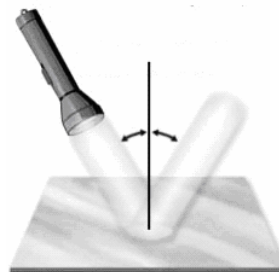

ANSWER

2. The speed of light in vacuum is:

- (a) 3×10^7 m/s (b) 3×10^8 m/s
(c) 3×10^9 m/s (d) 3×10^{10} m/s

ANSWER

3. Name the phenomenon associated with the picture shown below:

- (a) Reflection (b) Dispersion
(c) Diffraction (d) Displacement

ANSWER

4. The instrument shown below is a violin and it is a:

- (a) Stringed Instrument (b) Percussion Instrument
(c) Wind Instrument (d) All the above

ANSWER

SAMPLE QUESTION PAPER

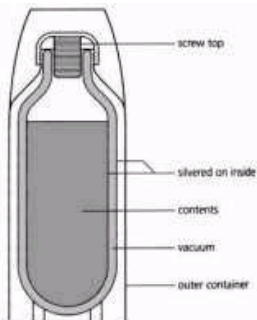

II. Answer the following in not more than 4 sentences:

1. Explain briefly the phenomenon of reflection of light.

2. Explain good conductors of heat with suitable examples.

III. Answer the following in not more than 30 words:

1. The following diagram shows a thermos flask.

Explain briefly the working of a thermos flask.

2. Explain briefly how you will experimentally prove that light travels in a straight line.

SAMPLE QUESTION PAPER

SECTION B

I. Write the correct answer (option a, b, c or d) in the boxes provided:

01. Caustic soda is chemically known as

- a. Calcium Hydroxide b. Sodium Hydroxide
c. Potassium Hydroxide d. Ammonium Hydroxide

ANSWER	
--------	--

02. What is the Latin name of copper?

- a. Cupprrium b. Cuprum
c. Copperium d. Cupricium

ANSWER	
--------	--

03. Glucose consists of the elements

- a. Calcium, Carbon and Hydrogen b. Carbon, Hydrogen and Oxygen
c. Sodium, Hydrogen and Oxygen d.. None of the above

ANSWER	
--------	--

04. A method for soil conservation is

- a. Afforestation b. Crop rotation
c. Manuring d. All the above

ANSWER	
--------	--

II. Answer the following questions in brief:

01. When an acid reacts with a base, the reaction is called neutralization reaction. Give an example of a neutralization reaction and write down the chemical equation also.

SAMPLE QUESTION PAPER

02. What is meant by the term 'electrolysis of water'?

03. Give two differences between solids and liquids.

III. Balance and complete (find X and Y) the following reactions.

IV. Answer the following in brief:

01. Give any four uses of sulphuric acid.

02. What are 'indicators'? Give two examples of indicators.

SAMPLE QUESTION PAPER

SECTION C

I. Write the correct answer (option a, b, c or d) in the boxes provided:

01. Which process ensures continuity of life?

- a) reproduction b) respiration c) digestion d) excretion

ANSWER	
--------	--

02. Which of the following is a water borne disease?

- a) typhoid b) cholera c) jaundice d) All of them

ANSWER	
--------	--

03. The upper two chambers of the heart are called

- a) auricles b) ventricles c) septum d) valve

ANSWER	
--------	--

04. Which gland in our body is known as the ‘master gland’?

- a) adrenal b) thyroid c) pituitary d) none of them

ANSWER	
--------	--

II. Answer the following in brief :-

01. Write one function of the following and give one example in each case

a) Carbohydrates _____

b) Proteins _____

02. Define the following :-

a) Population _____

b) Stimulus _____

SAMPLE QUESTION PAPER

03. Though definite methods to prevent child birth have been well known, the desired goal has not been achieved . List two factors responsible for the same.]

04. Name the different stages in the life cycle of a butterfly.

05. Mention the difference between pollination and fertilization.
